**Assignment 1: Computer Specifications**
This assignment is meant for you to understand how to read and describe computer specifications. Computer technology changes very rapidly, so it is important to understand the basic components of a computer system, so that you can make good purchasing decisions on upgrades of the hardware. This assignment is **due in one week.**

**Recommended Action plan**
1. Search online for three laptops that meet the following specifications. Copy and paste the links into your assignment
   - A Dell laptop that is less than $400
   - A Dell laptop that is more than $600
   - A Samsung Galaxy that has screen of at least 7 inch
2. In a word document, insert a table using the computer specification form (see next section) below
3. Looking at the webpage you found, fill out 1 column per link
4. Below the table, compare the three devices
   - write a few bullets on comparing the two dell laptops. Which would you buy, why? (There is no right answer. You just have to state a good reason for your decision)
   - write a few bullets on comparing the cheap dell laptop and the Samsung Galaxy. Which would you buy? why? (There is no right answer. You just have to state a good reason for your decision)

**Computer Specification Form**
1. Name of the item
2. Links to the items
