**Review****Part 1: Writing 20 Questions**

One of the best ways to move your understanding of a topic to the next level and acquire more concrete understanding is to write good questions about the topic. Submit as specified below:

- In total, 20 questions that cover the scope of the midterm as specified below
- Question format
  - Multiple choice: At least ten
  - True/False : At least two and no more than five
  - Short Answer: At least two and no more than five

**Part 2: Summarized Personal Notes for Midterm**

Given the format of the midterm in class exam, it is important that you spend time studying for the exam and preparing your own personal notes, or you will run out of time. There are no requirements on the format of the notes. Make notes that are most helpful for you to study for the exam and submit them on E-campus for credit. If writing on paper works best for you, you can scan the personally written notes for submission as well.
