

SPRING 2020 Syllabus Addendum 3/17/2020

Course: PHPM 631 Health Information Management Systems

Course Website: <https://pinformatics.org/phpm631/> (This is where you will find most up to date information given the dynamic nature of the situation. Please check here and email me if plans don't work out.)

Instructor: Hye-Chung Kum

Email Address: kum@tamu.edu

Scheduled Online Office Hours: 3-5pm on Wed (check course website for details on how to join)

Course format: This course will convert to a *synchronously online course* held on Mondays, 5:30 to 8:30 pm. Check the course website for how to join online.

Remaining Course Sessions:

Note: Course website will always have the most updated schedule as well as lectures combined with assignment due dates.

Green: Pushed back one week; **Yellow:** Changes to the syllabus

	Date	Lecture	Readings	Online Quiz Due	Assignment Given	Assignment Due	Presentations* (Tentative)
	3/9	SPRING BREAK					
8	3/16	Standards & Coding	Ch 10 & 11	Quiz 7	Assignment 6	Assignment 5	
9	3/23	Standards & Coding	Ch 10 & 11	Quiz 7		Assignment 5	GUEST LECTURE
10	3/30	Security & Privacy	Ch 9	Quiz 8	Assignment 7: Review	Assignment 6	GUEST LECTURE
11	4/6	Midterm				Assignment 7: Review	
12	4/13	SQL I	R2 on website	Quiz 9	Assignment 8		Group 5
13	4/20	SQL II					Group 6
14	4/27	Wrap up & Privacy SQL III			Final Project	Assignment 8	Group 7
	4/30					Final Project	

Due to class cancellation on 3/16 and moving the class online,

- We have combined the security and privacy lecture to cover the basics of privacy needed for the midterm
- We have taken out the non-essential lecture on SQL III planned on the last day to cover more advanced topics on privacy to make up for the condensed coverage on 3/30.
- We will still cover the basics of SQL in two lectures so that you can complete assignment 8 and the final project.
- This will allow us to ensure that the full curriculum is adequately covered so that the students learn everything they need to complete all assignments and exams that were planned.

The in class midterm, will be taken online (E-campus), and timed. The only difference is that it is planned to be proctored online.

Final Exam

Final project will stay the same as a take home.

Grading Policies

No changes to the grading policy as all assignments and exams will stay the same with the exception of the in-class activities converting to be delivered online, and a few being pushed back one week.
